

## PARK TOWERS TENANT MANAGEMENT INC.

The Hon Jenny Mikakos, Minister for Health  
Minister for Ambulance Services  
Minister for the Coordination of Health and Human

23/06/20

Dear Minister,

I'm writing with a great concerns about the OoH/DHHS response to the Pandemic in high rise public housing. Our organisation had plasters our lift foyer and other areas more than a week before the department struck.

We also closed our offices on the ground floor and started delivering things to people's doors wearing a mask. We had also printed posters from your site and other such messages in languages that we could not find on your website.

The department ripped all of information down and placed only your material up then changed the locks on the cabinets a week later we received an eviction letter to out of our offices after 25 years.

Oh and they installed one hand sanitiser dispenser, one, now completely understand about not sending mixed messages to our tenants but the department was being territorial at a time where I had reached out to the waved the white flag and wanted to work with them I can send you the emails.

But they really do not give dam this is all about power, and they don't like to share, what I will not stand for are up to 3 OoH offices visiting elderly people in their homes not wearing any face masks and telling them they don't have a rat problem (on the 21<sup>st</sup> flr) were the evidence is clear and the trades people have confirmed it.

All other care organisation wear marks and try not to go into elderly people's homes unless absolutely necessary.

We also said from the beginning that we thought the guards should be wearing masks as they are great but they also come into contacted with the worst of people who know no boundaries.

Regards

John Lowndes  
President 0408 550466
